

ARTEMIS

BREEDERS REFERENCE: LE16/316 TRIAL STATUS: RECOMMENDED UK

ARTEMIS A HIGH YIELDING FULLY LOADED HYBRID WITH A STRONG AGRONOMIC PACKAGE AND PROVEN ON FARM PERFORMANCE.

FULLY LOADED HYBRID

KEY STRENGTHS

High yielding variety with solid agronomic package

Robust variety with strong autumn and spring vigour

Strong disease resistance for both stem canker and Light leaf spot

Taller hybrid with excellent stem stiffness

Fully loaded hybrid with RLM7, POSH, TuYV

	ARTEMIS	DK Expectation	Respect	Temptation
Gross Output				
UK	106.0	102.0	105.7	102.7
East / West	106.6	102.0	106.4	103.3
North	101.8	101.9	100.7	98.0
Agronomic Characteristics				
Lodging Resistance	[8]	8	[8]	8
Stem Stiffness	8	8	8	7
Plant Height (cm)	164	165	162	154
Earliness of Flowering	6	6	7	6
Earliness of Maturity	6	5	5	5
Oil Content (@ 9% Moisture)	45.6	45.5	45.0	46.1

Data from the AHDB Oilseed Rape Recommended List 2021/22. On the 1-9 scales, high figures indicate that a variety shows the character to a high degree (e.g. high resistance). [] = limited data. Agronomic features marked with * are breeders perspective.

FULLY LOADED HYBRID

AGRONOMIC PROFILE

Agronomic Profile	Score
Stem Canker	6.3
Light Leaf Spot	6.0
Earliness of Maturity	5.7
Earliness of Flowering	6.1
Stem Siffness	7.7
Lodging	8.0
Autumn Vigour*	8
Spring Vigour*	7

Data from the AHDB Oilseed Rape Recommended List 2021/22. On the 1-9 scales, high figures indicate that a variety shows the character to a high degree (e.g. high resistance). [] = limited data. Agronomic features marked with * are breeders perspective.

Resistance protects against the symptoms of TuYV: a virus transmitted by aphids which can cause up to 30% yield drop and 3% loss of oils.

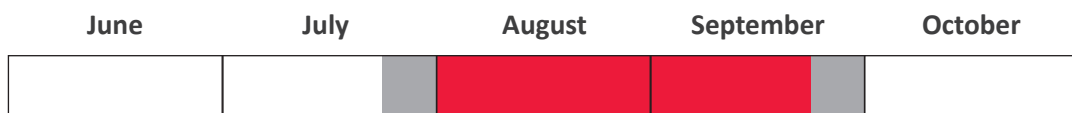

Is gene-specific resistance to phoma stem canker and is included in combination with quantitative resistance in all our fully loaded hybrids.

Resistance helps protect against untimely seed losses around harvest caused by weather or combine passing through the crop.

SOWING WINDOW

Recommended Sowing Period
Potential Sowing Period depending on seasonal conditions

Artemis is a consistently high yielding fully loaded hybrid variety with excellent autumn and spring vigour. Artemis offers comprehensive trait package with TuYV resistance, RLM7 and Pod Shatter. Artemis is one of the tallest hybrids on the list but with very good straw strength attributes for securing yield potential in dry conditions.
