

LG Tomahawk

Highest yielding feed variety

Market Options: Feed

LG Tomahawk is the highest yielding feed variety on the AHDB Recommended List 2019/20.

The variety offers higher yield potential than other leading varieties, especially in the key malting barley growing areas of the East and North regions. It is a short variety, similar to Laureate with a strong agronomic profile. LG Tomahawk has one of the better disease resistance packages with a 6 rating for the yield-robbing disease; *Rhynchosporium*.

Strengths

- Very high yields
- Good yield consistency over seasons
- Non GN-producer
- Low grain nitrogen
