

Rondo

Good root anchorage for less wastage

End Use: Dairy, Beef & Sheep

Utilisation: Graze in situ

Sowing period: Spring, Early Summer & After cereals

Utilisation Period: Autumn & Winter

Regrowth: No

Rondo is a green skinned variety, suitable for sheep or cattle.

It has a very leafy growth habit with excellent disease resistance and can be utilised from September to early February. Rondo has excellent root anchorage which helps reduce wastage in the field.

Strengths

- Later use
- Frost tolerant
- UK proven
- Good root anchorage
