

Samson

Huge tankard-shaped roots that are highly digestible

End Use: Dairy, Beef & Sheep

Utilisation: Graze in situ

Sowing period: Spring, Early Summer & After cereals

Utilisation Period: Summer, Autumn & Winter

Regrowth: No

Samson can produce huge, tankard-shaped purple bulbs which are very palatable to both sheep and cattle.

In trials, Samson has shown to be preferentially grazed which can lead to higher intake and liveweight gains.

Strengths

- Large tankard roots
- Tetraploid variety
- UK proven
- Preferentially grazed
