

Clovercut

Tetraploid grasses and red clover give highly nutritious silage over 3 years

Use: Mainly Cutting

Length of use: Short Term

Animal: Dairy & Beef

Clover: Red Clover

Management System: Intensive

Tetraploid grasses and red clover give highly nutritious silage over 3 years.

Clovercut is a high performing cutting mixture, containing red clover to increase silage protein levels.

Treated with HEADSTART® GOLD for improved establishment.

Strengths

- Gives big yields of high energy, high sugar and high protein silage
- Fixes atmospheric nitrogen
