

Grass Booster (Blended Ryegrass)

Tremendous yields and fast regrowth over an 18 month period

Use: Mainly Cutting

Length of use: Short Term

Animal: Dairy & Beef

Clover: No Clover

Management System: Intensive

Tremendous yields and fast regrowth over an 18 month period.

Grass Booster produces massive yields over a short period giving extra grass whenever you need it.

Strengths

- Ideal catch crop sown after maize, arable silage or wholecrop
- Helps prevent winter soil erosion and mops up nutrients to help prevent leaching
- Fast spring growth suited to an early silage cut
- A great budget short term ley option
