

Matrix 70

70% Matrix for southern areas and lower altitudes. Extended grazing for paddock systems

Use: Extended Grazing

Animal: Dairy

Length of use: Medium (4 - 7 Years)

Available with Clover: White Clover

70% Matrix for Southern areas and lower altitudes. Extended grazing for paddock systems.

Only recommended for the warmer parts of the UK (not Scotland or Northern Ireland), unless overseeding an existing pasture. For overseeding, we recommend a minimum rate of 8 kilos per acre. Enables farmers in mild winter areas to exploit the value of the long season production of Matrix to the full.

Matrix Enhanced® Ryegrass mixture.

Strengths

- Best mixture for Southern regions of the UK and Ireland
- 70% Matrix and 20% top performing Ryegrasses with 10% White Clover

- For rotational management (paddock) systems only
- Dense sward with excellent stocking capacity
- Very rapid regrowth

Technical Information
