

Matrix with Timothy

Highest yielding extended grazing mixture in our trials

Use: Extended Grazing

Animal: Most Livestock

Length of use: Medium (4 - 7 Years)

Available with Clover: White Clover

Highest yielding extended grazing mixture in our trials.

Early to grow in the spring – both Matrix and Timothy will grow at lower temperatures than Perennial Ryegrass, thus making a greater contribution to early turn-out.

The Timothy content also makes this mixture more winter hardy.

Matrix Enhanced® Ryegrass mixture.

Strengths

- Matrix and Timothy both grow at lower temperatures than ryegrass
- Suitable for all but the harshest climates in the UK and Ireland
- Highest yielding mixture in Limagrain trials
- Dense sward with excellent stocking capacity

- Very rapid regrowth

Technical Information

For detailed information, download our [Sinclair McGill Grass and Forage Crops Handbook](#) or for your [local stockist](#), please contact your local distributor.
