

Ambition Forage

A great variety to improve the performance of your maize

Maturity: Early

Site Type: Favourable & Less Favourable

Sowing Type: Open & Plastic

Maximises energy yield from every hectare grown to lower the cost of production, whilst producing high quality silage that reduces bought in feed costs.

With excellent early vigour growing Ambition ensures maximum performance in all conditions.

Ambition combines high DM yield with improved cell wall digestibility to deliver high ME yields, reducing purchased feed costs.

Ambition is a Limagrain Animal Nutrition (LGAN) accredited variety.

Strengths

- Ambition is a LG Animal Nutrition accredited variety
- Ambition has excellent Eyespot tolerance and can be grown in areas at risk of the disease
- With excellent early vigour growing Ambition ensures maximum

- performance in all conditions
- Ambition will remain standing right up to harvest
- Combines high DM yield with improved cell wall digestibility to deliver high ME yields, reducing purchased feed costs
- Ambition has a high starch yield ensuring quality silage is produced from every hectare grown
- Ambition has high dry matter yields, reducing production costs per hectare
- Ambition is one of the most widely grown maize varieties in the UK, a reliable choice for growers
