

Dignity

A Serious Performer!

Maturity: Very Early

Site Type: Less Favourable

Top quality, high yielding maize from an early harvest! Dignity is very early maturing, with high starch and cell wall digestibility content.

An LGAN accredited variety.

Strengths

- NEW! Expected to be listed as First Choice on the BSPB/NIAB 2023 list
- Very early maturing (MC10) delivering a secure result from a short growing season
- Medium height with good early vigour
- Improved cell wall digestibility for energy dense maize
- High starch yields, great for grass silage-based diets
- Excellent yield comparable to later maturing varieties

Technical Information

See table below for technical information on Dignity. Full data available in the [Maize Variety Selection Guide 2022](#)
