

LG 31.218

Impressive Performance!

Maturity: Intermediate

Site Type: Favourable

Sowing Type: Open

For an early harvest with massive yields of quality silage.

Strengths

- Excellent early vigour and good Eyespot tolerance
- Maturity Class 6 - early to harvest on mainstream sites
- LG31.218 produces massive ME (energy) yield for every hectare grown
- Excellent cell wall digestibility (61.3%), improving intakes and gas yield
- The 2nd highest yielding variety available, cutting costs of production
- One of the top 3 ME yielding varieties available - a great return on investment
