

Architect

TuYV resistant hybrid

Type: Restored Hybrid

Status: Recommended UK

Clubroot Resistant: Non-Resistant

Clearfield®: No

Resistance Traits: TuYV (Turnip Yellow Virus) & Pod Shatter

Architect was the first restored hybrid in the UK to offer TuYV resistance, combined with a gross output comparable to leading varieties of the time. Although surpassed for yield potential by the new additions to the AHDB RL, the variety still offers a very good agronomic package for securing full yield potential on farm.

Strengths

- Turnip yellows virus (TuYV) resistance
- Pod shatter resistance
- High gross output
- Resilient across a wide area
- Winter hardy
