

Lift N Fix

Provides excellent weed smothering properties

Target: Weed Suppression

Scheme: Basic Payment Scheme

Area: Cover Crop

Sowing period: Summer/Autumn

A fantastic mixture to follow cereals. The mixture will help penetrate compacted soils and will provide excellent weed smothering properties.

The inclusion of vetch will fix nitrogen and will benefit subsequent crops, especially spring sown root crops. Winter grazing rye has a good ability to uplift N and is very winter hardy.

Also suitable for Countryside Stewardship Schemes;

Countryside Stewardship Option – SW5 & SW6

This mixture is also suitable for Ecological Focus Areas (EFA) fallow land option

Mixture Formulation:

70% Winter Rye

30% Vetch

Strengths

- Rapid establishment
- Excellent winter ground cover
- Excellent tillering and weed suppressant
- Winter rye Humbolt is an effective nitrogen lifter
- Nitrogen is made available for following spring sown crop
- Deep roots help penetrate compacted soils
- Improved drainage

Technical Information

Seed packed in 20kg bags.

Sow August to the end of September at 60-70kg per hectare.

Rothwell, Market Rasen,
Lincolnshire, LN7 6DT
