## TRIAL SEED OFFER: TERMS AND CONDITIONS

### 1. CHARGES

**1 – 49kg:** Cereals and Pulses **£1.65/kg** Oilseeds **£1.00/100g**

Price on application for quantities over 50kgs of any one variety. For varieties not on the National List (marked \*), the charges made refer to a handling charge, which is subject to VAT, and the seed is not offered for sale.

### 2. DISTRIBUTION COST

Orders will be sent by first class post or carrier and will be charged at cost. Orders that are sent by carrier are on a 'next working day' basis. When ordering, please allow up to 7 days for delivery.

A minimum invoice charge of £20.00 per order will be made to cover administration, packaging and handling costs.

### 3. QUANTITIES

For ease of dispatch the maximum bag size is 25kg. Supplies of some varieties are limited and will be dispatched on a 'first come, first served' basis. Varieties which do not continue in official trials, or are withdrawn by Limagrains, will be deleted from your order.

### 4. SEED DRESSINGS

Seed will be supplied with the following dressings:

**Spring Barley:** Redigo Pro

**Spring Wheat:** Redigo Pro

**Peas:** Thiram Plus

**Spring Beans:** Untreated

We reserve the right to supply seed dressed with an equivalent dressing without recourse to the purchaser.

Untreated 'cleaned only' seed is also available. Limagrains cannot accept any responsibility for poor establishment that results from the sowing of untreated seed supplied by us.

### 5. CONDITIONS OF SUPPLY

- a) It is a condition of supply that the seed is to be used under our control for the purpose of carrying out tests and trials, and it is not used for further multiplication. The whole of the material produced directly or indirectly from the seed shall become surplus to our requirements and shall be disposed of by you, on our behalf for any purposes other than sowing. Any proceeds of such disposal may be retained by you to offset the expenses incurred.
- b) The seeds which are supplied with this delivery are conventional varieties bred from parent plants which have not been genetically modified. The methods used in the breeding and development of these varieties include procedures aimed at minimising the presence of adventitious Genetically Modified Organisms ('GMO'). Production of seed for sowing is carried out in open fields in natural conditions in which there is free circulation of pollen. Production may take place in areas where the growing of genetically modified varieties is authorised. It is therefore not possible to prevent the occurrence of adventitious GMO and to guarantee that the seed lots comprising this delivery are free from all traces of GMO. Although appropriate samples of seed have been tested and/or appropriate due diligence procedures applied in order to comply with applicable seed legislation and for adventitious GMO presence, Limagrains gives no guarantee that the seed is GMO free and can accept no liability for any damage whatsoever arising from the possible occurrence of adventitious traces of GMO.
- c) It is understood that, by arrangement, Limagrains or their breeders and agents will be allowed access to their material in trial and the subsequent results.
- d) All trial seed supplied is for use only in the United Kingdom.
- e) Seed supplied for trials is covered by Limagrains UK's usual conditions of sale of seeds; a copy of which is available on request.

Seed will only be supplied on these terms. If an order is received, we shall treat it as an order to purchase on these terms, irrespective of whether any terms are included with the order.

**If you wish to place an order, please sign and return the enclosed form by post, e-mail or fax. Orders will not be accepted by telephone unless they are followed up by written confirmation.**
