

# WIZARD

## WIZARD MAIZE

Let it work its magic in your clamp!

# WIZARD MAIZE

## DESCRIPTION

**Type:** Early

**Feed:** High starch and CWD

**Yield:** High

## ADVANTAGES

■ Early harvest

■ Improved feeding performance

■ Competitive performance

## RECOMMENDED USAGE

Forage Maize

## AGRONOMICS

- Early to harvest (MC8) making it suitable for growing on any maize site
- Wizard is the leading variety in the official Danish Farmers union trials

## FEEDING

- Wizard has superb cell wall digestibility
- High ME content and CWD maximises dry matter intake and feeding performance from the clamp
- High ME yields, maximising feed value per hectare

## YIELD

- Good yields combined with excellent feed values
- Wizard represents great value for money
